

Creative and adaptable front-end web developer with a year of experience, blending problem-solving acumen with a knack for innovative design solutions. Passionate about crafting user-friendly and visually appealing websites. Successfully transitioned from a jewelry design career, bringing a unique perspective and diverse skills to contribute to dynamic and collaborative teams. Eager to leverage my creativity and technical expertise in the fast-paced world of front-end development.

Employment history

Dec, 2023 - Present

UI | front-end web developer

Athletifi at New York City

- **Front-End Development:** Create responsive and engaging user interfaces using React.js, Next.js, and Tailwind CSS.
- **Agile Development:** Collaborate within Scrum methodologies with the team to deliver iterative and high-quality UI features, adhering to sprint timelines and project deadlines.
- **Component-based Architecture:** Develop and maintain reusable UI components for consistency and efficiency across projects.
- **Prototyping and Wireframing:** Translate design mock-ups and wireframes into functional user interfaces, ensuring a seamless user experience.
- **Cross-functional Collaboration:** Communicate effectively with the design and backend team to implement UI elements and integrate front-end functionalities.
- **Testing and Debugging:** Conduct thorough testing and debugging processes to ensure UI components meet functional and performance standards.
- **Optimization and Performance:** Optimize UI components for speed and responsiveness, focusing on mobile-first design principles.
- **Version Control and Documentation:** Utilize version control systems (e.g., Git) and maintain comprehensive documentation for codebase and UI components.
- **Continuous Learning:** Stay updated with emerging technologies and best practices in front-end development to enhance skills and contribute innovative ideas.

Employment history

Jan, 2017 - Jul, 2022
